Supplementary file 1. Questionnaire: Ethnobotanical survey.

The use of Salvia officinalis, Ditrichia viscosa, and Daucus carota in Morocco

Location surveyed .................................................................

Geographic location (GPS): .....................................................

Population information

Gender:  □ Male          □ Female

Age:  □ < 20          □ 20-29          □ 30-39          □ 40-49          □ 50-60          □ > 60

Family situation:  □ Single          □ Married          □ Widower          □ Divorced

Level of study:  □ Illiterate          □ Prim          □ Sec          □ Univ

Profession:  □ Herborist          □ Housewife          □ Farmer          □ Collector          □ Researcher          □ Healer

 □ Other

Economic level:  □ Low          □ Middle          □ High

Residential area: .................................................................

Plant information:

- Use of AMP by the informant:  □ Yes          □ No

   If so, you used it because it's...?

   □ Ineffective drug          □ Cheaper          □ Effective          □ Acquisition

- When you want to use the plant, contact:  □ Experience of others          □ Pharmacists          □ Books

   □ Herbalists (Achab - Attar)

- Use of genres:  □ Salvia          □ Ditrichia          □ Daucus

Vernacular name: ................................................................

Scientific name: ................................................................

.................................................................
Type of plant:  □ Cultivated  □ Wild

Use of the plant:  □ Therapeutic  □ Cosmetic  □ Ornamental  □ Feed  □ Culinary  □ Other

Parts used:  □ Leaves  □ Roots  □ Stems  □ Flowers  □ Fruit  □ Bark  □ Resin  □ Seeds

State of the plant:  □ Fresh  □ Dry

Preparation mode:  □ Infusion  □ Decoction  □ Maceration  □ Essential oil  □ Powder  □ Cataplasm  □ Raw Cooked  □ Other

Used dose:  □ Pinch  □ Handful  □ Spoonful  □ Others

Administration mode:  □ Massage  □ Rinsing  □ Brushing  □ Oral  □ Others

Use duration:  □ A day  □ A week  □ A month  □ Until recovery

Dosage:

Children:  □ 1 time/day  □ 2 times/day  □ 3 times/day  □ Others:  ……..

Adults:  □ 1 time/day  □ 2 times/day  □ 3 times/day  □ Others:  ……..

Elderly people:  □ 1 time/day  □ 2 times/day  □ 3 times/day  □ Others:  ……..

Diseases treated:

□ Dermatological disorders  □ Respiratory diseases  □ Neurological disorders

□ Cardiovascular disorders  □ Genitourinary conditions  □ Oral disorders

□ Osteoarticular disorders  □ Metabolic disorders  □ Ophthalmic disorders

□ Digestive tract diseases  □ Gland disorders  □ Other

Diagnosis by:  □ Himself  □ Doctor  □ Herbalist  □ Other

Results:  □ Recovery  □ Improvement  □ Ineffective

Side effects:  □ Yes  □ No
If yes, what are these effects
